**Section 3.** That a new subsection E be added to 9-1-19-33R entitled “Policy 33 (Relative) Energy Conservation” and that existing entitled “E General Provisions” be renumbered as F accordingly to read as follows:

E. Electrification:

+4 points may be awarded for new residential or commercial development that does not provide gas to the property and provides all of its energy and heating demands through electric or renewable energy sources, with a covenant recorded against the property in a form approved by the Town attorney.

+4 points may also be awarded to existing residential or commercial development that fully and permanently disconnect gas service to the property, with a covenant recorded against the property in a form approved by the Town attorney.

+4 points may be awarded where an addition to a residential or commercial property is proposed, where gas service is fully and permanently disconnected from any existing structures on the property and gas is not provided to the addition, with a covenant recorded against the property in a form approved by the Town attorney.

A maximum of +4 points may be awarded under this subsection E.

F. General Provisions:

1. A projected analysis shall be submitted at the time of development permit application if positive points are requested as well as submittal of a confirmed analysis prior to the issuance of a certificate of occupancy or certificate of completion. A HERS/ERI analysis shall be performed by a certified HERS/ERI rater. An analysis of energy saved beyond the IECC or the SSBC, whichever code is the most restrictive, shall be performed by the licensed Colorado engineer of record for the project.

2. No development approved with required positive points under this policy shall be modified to reduce the HERS/ERI index, percentage of improvement, or percentage of energy savings above the IECC standards in connection with the issuance of such development permit. (“Required positive points” means those points that were necessary for the project to be approved with a passing point analysis.)

3. Prior to the issuance of a certificate of occupancy each development for which positive points are awarded under this policy shall submit a letter of certification showing compliance with the projected energy rating or percentage of energy savings in comparison to the IECC or the SSBC, whichever code is the most restrictive. The required confirmed certification for a residential development three (3) stories or less in height shall be submitted by a certified HERS/ERI rater. The required confirmed certification for a residential development taller than three (3) stories, and for all commercial development, shall be submitted by a licensed Colorado engineer and accompanied by balance and commissioning reports.

**Section 4.** This ordinance shall be published and become effective as provided by Section 5.9 of the Breckenridge Town Charter.
