

RESOLUTION NO. 21

SERIES 1984

A RESOLUTION FOR THE TOWN OF BRECKENRIDGE
TO ENTER INTO A CONTRACT BETWEEN THE
UNITED STATES AND THE TOWN OF
BRECKENRIDGE FOR WATER STORAGE SPACE IN
GREEN MOUNTAIN RESERVOIR

WHEREAS, the Town of Breckenridge desires to enter into a contract with the United States (Bureau of Reclamation) for water storage space in Green Mountain Reservoir.

NOW, THEREFORE, BE IT RESOLVED BY THE TOWN COUNCIL OF THE TOWN OF BRECKENRIDGE, COLORADO:

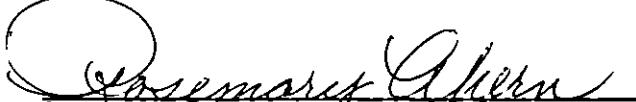

Section I. The Agreement between the Town of Breckenridge and the United States (Bureau of Reclamation) for water storage space in Green Mountain Reservoir, a copy of which contract is attached hereto as Exhibit A and by this reference made a part hereof is hereby approved by the Town Council.

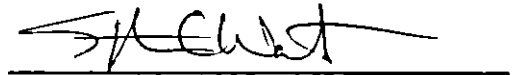

Section II. The Town Manager of the Town of Breckenridge be and hereby is authorized, empowered and directed in the name of the Town of Breckenridge and on behalf of its Town Council to make, execute and deliver said Agreement attached hereto as Exhibit A.

RESOLUTION ADOPTED AND APPROVED THIS 10th day of July, 1984.

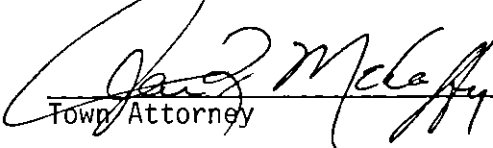

ATTEST:

RO DRAFT 06/21/84

CONTRACT NO. _____

UNITED STATES
DEPARTMENT OF THE INTERIOR
Bureau of Reclamation
Colorado-Big Thompson Project, Colorado

CONTRACT BETWEEN THE UNITED STATES AND THE TOWN OF BRECKENRIDGE
FOR WATER STORAGE SPACE IN GREEN MOUNTAIN RESERVOIR

THIS CONTRACT, made this ____ day of _____, 198__, pursuant to the Act of June 17, 1902 (32 Stat. 388), and acts amendatory thereof and supplementary thereto, particularly the Act of August 9, 1937 (50 Stat. 564) as amended and supplemented, collectively known as the Federal Reclamation laws, is between the UNITED STATES OF AMERICA, acting through the Bureau of Reclamation, hereinafter referred to as the United States or the Bureau, represented by the Contracting Officer executing this contract, and the TOWN OF BRECKENRIDGE, a municipal corporation duly organized and existing under the laws of the State of Colorado, hereinafter referred to as the Contractor.

EXPLANATORY RECITALS

WHEREAS, the following statements are made in explanation:

a. The United States, acting through the Secretary of the Interior, has constructed Green Mountain Dam, Reservoir, hereinafter referred to as the Reservoir and Powerplant on the western slope in Colorado as a feature of the Colorado-Big Thompson Project. The Dam and Reservoir were completed in November 1942. The Reservoir is operated as set forth in S. Doc. 80 (Act of August 9, 1937, 50 Stat. 564) and reaffirmed in the Consolidated Cases (Civil Action Nos. 2782, 5016, and 5017); United

States District Court for the District of Colorado. A policy for the operation of the Reservoir was published in the Federal Register on December 22, 1983, which quantified the presently perfected uses of water as administered under S. Doc. 80 and the consolidated cases. The Reservoir presently has a total capacity of 153,639 acre-feet of storage space. Of that total capacity, 52,000 acre-feet are available to provide replacement water in western Colorado when water is diverted to the eastern slope through the Colorado-Big Thompson Project. The yield from the remaining 101,639 acre-foot capacity (commonly referred to as the 100,000 acre-foot power pool) including refill right, will to the extent feasible be released through the Powerplant, and the water so released shall be available for other beneficial consumptive uses in western Colorado.

b. The Contractor has purchased water rights associated with the Clayton Hill Ranch upstream from the Reservoir and downstream from Breckenridge and Denver's Dillon Reservoir, hereinafter referred to as Dillon. The Contractor desires to exchange the Clayton Hill Ranch water upstream of Breckenridge. The Clayton Hill Ranch water is diverted during the irrigation season when Denver is storing in Dillon, and the Contractor cannot exchange its water without injuring Dillon storage rights. The Contractor desires to store their Clayton Hill Ranch water in the Reservoir during the summer months and regulate such water for senior downstream water rights or exchange it upstream during the winter months.

c. In years when the Reservoir does not fill, the Contractor's water can be stored in the summer months and regulated or exchanged upstream during the winter months. In years when the Reservoir fills, the Contractor's water will be released as the Reservoir fills, thus providing additional power production during the summer with maximum power head. During the following winter, an amount of water equal to the amount that would have been stored for the Contractor will be exchanged from the Reservoir. This procedure will provide the Bureau of Reclamation the same total quantity of water in the Reservoir for power generation but will change the pattern of releases for power generation. The Bureau will realize greater power production from a full reservoir in the summer instead of the lower reservoir in the winter.

d. The Contractor desires to contract, pursuant to the Federal Reclamation laws and the laws of the State of Colorado, for the storage of up to 800 acre-feet of water annually in the Reservoir for which the Contractor will make payment to the United States upon the basis, at the rates, and pursuant to the conditions hereinafter set forth; and,

e. The United States desires to provide the required 800 acre-feet of water storage annually in the Reservoir.

f. For the Federal actions contemplated by this contract, the following actions have been taken with respect to compliance with the requirements of the National Environmental Policy Act and the Endangered Species Act.

(1) Based on information furnished by the Contractor, the Fish and Wildlife Service by letter of October 19, 1983, agreed with the United States "no effect" determination on fishes downstream from the proposed storage and exchange of water in the Colorado River in addition to "no effect" on any federally listed or proposed threatened or endangered species.

(2) The Contractor has negotiated with the Colorado Division of Wildlife to satisfy the concerns of the Division of Wildlife on the impact of their water exchange upstream of the Reservoir. The United States issued a Finding of No Significant Impact dated April 12, 1984, to comply with the National Environmental Policy Act and the Endangered Species Act.

NOW, THEREFORE, in consideration of the mutual covenants herein contained, the parties hereto agree as follows:

DEFINITIONS

1. Where used herein, unless specifically expressed otherwise or obviously inconsistent with the intent hereof, the term:

a. "United States" shall mean the United States of America, acting through the Secretary of the Interior (hereinafter referred to as the "Secretary") or his duly authorized representative.

b. "Contracting Officer" shall mean the Regional Director, Lower Missouri Region, Bureau of Reclamation. Unless deemed other-

wise, the Contracting Officer shall be the Secretary's authorized representative.

c. "Project" shall mean the Colorado-Big Thompson Project, Colorado.

d. "Contractor" shall mean the town of Breckenridge, a municipal corporation, duly organized and existing under the laws of the State of Colorado.

e. "Delivery" shall mean the delivery of stored water into the Blue River at the outlet works of Green Mountain Dam pursuant to request made by the Contractor in accordance with the provisions of Article 5.

f. "Year" shall mean contract year unless otherwise identified and shall be the period beginning on May 1 of the year stated and ending the following April 30.

g. "Replacement capacity" shall mean the 52,000 acre-foot capacity of the Reservoir required to permit project diversions at times when such diversions could not otherwise be made because of simultaneous demands of senior diversions in western Colorado.

h. "Power pool" shall mean that portion of the total capacity of the Reservoir in excess of the replacement capacity commonly referred to as the 100,000 acre-foot power pool.

i. "Dam, "Reservoir," or "Powerplant" shall mean Green Mountain Dam, Reservoir, and Powerplant and related facilities constructed on the

Blue River a tributary of the Colorado River as a feature of the Project.

j. "Domestic use" shall mean the use of water by individuals, cities, towns, public or quasi-public districts, private corporations, homeowners' associations, or other entities for domestic, municipal, and miscellaneous related purposes as those terms are traditionally and commonly construed, excepting only the irrigation and industrial uses of water as defined below.

k. "Irrigation use" shall mean the use of water for the commercial production of agricultural crops and livestock and other uses consistent with any water right decreed for irrigation purposes.

l. "Industrial use" shall mean the use of water for purposes of producing or processing a nonagricultural product or service for sale, including without limitation such uses as manufacturing, mining, milling, land reclamation, snowmaking, and nonhydroelectric power generation.

TERM OF THE CONTRACT

2. a. The contract becomes effective May 1, 1985, and shall remain in effect until April 30, 2003, unless terminated sooner in accordance with the provisions of Article 7.

b. The Contractor shall have the option to renew this contract for additional terms of up to 40 years upon written request to the

Secretary on or before 2 years prior to the expiration of this contract; Provided, however, That all other terms and conditions, including the water storage space charges set forth in Article 4, may be renegotiated by the parties based on Federal Reclamation laws and rules and regulations in effect at that time.

CONTRACTED SERVICE

3. The Contractor hereby contracts for up to 800 acre-feet of water storage space annually from the Reservoir and the United States agrees to provide such water storage space, subject to the terms and conditions of this contract.

WATER STORAGE SPACE CHARGES

4. a. The water storage space charge shall be an annual payment of \$11,200 for the amount of water storage space contracted for herein and which the United States is capable of providing to the Contractor. The annual water storage space charge shall be paid in advance and will become due May 1, 1985, and thereafter is payable on or before May 1 of each subsequent year of this contract.

Any charge for water storage space not used each year above 475 acre-feet shall be refunded or credited to future years at \$14 per acre-foot.

b. The water storage space charge includes an OM&R (operation, maintenance, and replacement) cost component of \$0.22 per acre-foot.

The OM&R cost is calculated by dividing the 1983 fiscal year OM&R cost of the Reservoir by the 153,639 acre-foot capacity of the Reservoir. The water storage space charge set forth in Article 4a may be reviewed and adjusted by the Contracting Officer for OM&R cost increases, at 5-year intervals beginning May 1, 1990, based on Federal fiscal year accounting. Adjustments in the OM&R component shall be based on a projection of expenses for OM&R in the succeeding 5 Federal fiscal years taking into account the actual expenditures for OM&R during the preceding 5 Federal fiscal years. Any increases in the per acre-foot OM&R component will be multiplied by 800 and the annual water storage space charge shall be increased by this amount until the next 5-year adjustment. The annual water storage space charge will not be reduced as a result of a reduction in OM&R costs.

c. If the United States is unable to provide water storage space up to 800 acre-feet as requested by the Contractor, pursuant to this contract, the payment for the amount of storage space not provided will be refunded at the rates provided in Article 4a.

STORAGE AND DELIVERY OF WATER

5. a. Before May 1 of each year, the Contractor will submit a written schedule to the Contracting Officer of its anticipated monthly storage and delivery of water during the succeeding 12-month period from May 1 through April 30. The Contractor shall revise said schedule as necessary to reflect its expected schedule based on current water

conditions. Notwithstanding the above, the Contractor shall be entitled to the storage or delivery of water under this contract at any time upon 24 hours notice to the Contracting Officer or a designated representative. All notices requesting storage or delivery or a change in the storage and delivery schedule shall be in writing. However, orders which cannot be transmitted in writing due to urgent or emergency situations may be telephoned to the Contracting Officer or a designated representative, whereupon such orders shall be confirmed in writing by the Contractor.

b. The Contracting Officer will timely notify the Contractor and Division No. 5 Engineer, Colorado Division of Water Resources, in Glenwood Springs, Colorado, of the date, time and amount of the water stored and released from the Reservoir pursuant to this contract.

c. In the event the Contractor fails or is unable to provide water for storage by the United States pursuant to this contract said inability, failure, or refusal shall not relieve the Contractor of the obligation to pay for water storage service pursuant to the terms of this contract. The Contractor shall be solely responsible for making whatever arrangements are necessary for making water available for storage in the Reservoir.

d. The delivery of stored water under this contract will be made into the Blue River at the outlet works of the Reservoir in accordance with the provisions of Article 5a. All delivery of water will be

limited by the outlet capacity of the Reservoir. All water stored for and delivered to the Contractor from the Reservoir will be measured as it is stored or released by the Contracting Officer with equipment furnished, operated, and maintained by the United States. The United States will not be responsible for the control, carriage, use, handling or distribution of water delivered to the Contractor beyond the delivery point and the Contractor shall hold the United States harmless from and against all claims, demands and causes of action on account of property damage, personal injury or death resulting from the control, carriage, use, handling or distribution of water delivered to the Contractor, provided such water is delivered in a safe and reasonable manner.

e. The United States may refuse to deliver water under this contract any time the Contractor is in arrears in the annual storage space payment.

f. The Contractor will not be responsible for the storage of water in or the O&M of the Reservoir and the United States shall protect, indemnify and hold the Contractor harmless from and against all claims, demands and causes of action of any nature whatsoever resulting from or in any manner connected with the storage of water in or the O&M of the Reservoir within the limits of the Federal Tort Claims Act (28 U.S.C. sections 2671-2680).

g. Storage will be provided on the condition that it will not interfere with the operation of the Reservoir as set forth in S.

Doc. 80, 75th Cong., 1st sess., and the Act of August 9, 1937 (50 Stat. 564). The provisions of storage under this contract will require coordination of the release of water from the Reservoir for power generation by releasing additional water for power generation during the summer when the Reservoir is full. This is in lieu of winter power generation without providing water storage for the Contractor.

CONTRACTOR'S USE OF WATER

6. a. Contractor-owned water stored for and delivered to the Contractor under this contract may be used by the Contractor for any purpose permitted by the laws of the State of Colorado.

b. The Contractor may charge its users such rates for municipal service as permitted by Colorado law for water stored pursuant to this contract.

c. The Contractor agrees that the delivery of irrigation water or use of Federal facilities pursuant to this contract is subject to Reclamation law, as amended and supplemented, including but not limited to the Reclamation Reform Act of 1982 (Public Law 97-293), and the regulations promulgated by the Secretary under authority of that act.

TERMINATION OF THE CONTRACT

7. This contract may be terminated on May 1 of any year at the request of the Contractor by submitting a notice for termination to the Contracting Officer at least 60 days prior to May 1.

ASSIGNMENT OF THE CONTRACT

8. a. The United States may assign all or part of its interest in this contract provided the assignee has the capability to furnish water storage space to the Contractor as herein provided and assumes all rights, duties, and obligations under this contract. The Contracting Officer shall give the Contractor 90 days notice of assignment of this contract. In the event of such assignment, the assignee may, to the extent allowed by Colorado law and applicable Federal laws and regulations, provide the contracted water storage space from water storage sources other than the Reservoir, provided such alternate source of water storage space is acceptable to the Contractor and, provided further, that acceptance of water storage space from alternate sources does not abrogate the Contractor's right to water storage space in the Reservoir as provided by this contract.

b. This contract may not be assigned by the Contractor without the prior written approval of the Contracting Officer; Provided, however, Any such assignee assumes all obligations of the Contractor hereunder. The Contractor shall furnish the Contracting Officer a copy of all assignment documents prior to the effective date of any assignment of the contract.

c. In the event of assignment of this contract there shall be no additional charge imposed on or by the assignee for water storage space provided pursuant to this contract other than charges set forth in

Article 4; Provided, however, That an assignee of the United States may impose an additional charge with the consent of the Contractor. Agreements between the Contractor and water users within the Contractor's service area for water service are not considered assignments under this article.

BOOKS, RECORDS, AND REPORTS

9. The Contractor shall establish and maintain accounts and other books and records pertaining to its water storage and delivery as either relates to this contract. Reports thereon shall be furnished to the Contracting Officer in such form and on such date or dates as he may require. Subject to applicable Federal laws and regulations, each party shall have the right during office hours to examine and make copies of each other's books and records relating to matters covered by this contract.

NOTICES

10. Any notice, demand or request authorized or required by this contract shall be deemed to have been given, on behalf of the Contractor, when mailed postage prepaid, or delivered to the Regional Director, Lower Missouri Region, Bureau of Reclamation, P.O. Box 25247, Denver, Colorado 80225, and on behalf of the United States, when mailed postage prepaid, or delivered to the Town of Breckenridge, P.O. Box 168, Breckenridge, Colorado 80424. The designation of the addressee or the address may be changed by notice given in the same manner as provided in this article for other notices.

CHARGE FOR LATE PAYMENTS

11. The Contractor shall pay a late payment charge on installments or charges which are received after the due date. The late payment charge percentage rate calculated by the Department of the Treasury and published quarterly in the Federal Register shall be used; Provided, That the late payment charge percentage rate will not be less than 0.5 percent per month. The late payment charge percentage rate applied

on an overdue payment will remain in effect until payment is received. The late payment rate for a 30-day period will be determined on the day immediately following the due date and will be applied to the overdue payment for any portion of the 30-day period of delinquency. In the case of partial late payments, the amount received will first be applied to the late charge on the principal and then to payment of the principal.

TITLE VI, CIVIL RIGHTS ACT OF 1964

12. a. The Contractor agrees that it will comply with Title VI of the Civil Rights Act of July 2, 1964, (78 Stat. 241) and all requirements imposed by or pursuant to the Department of the Interior Regulation (43 CFR 17) issued pursuant to that title, to the end that, in accordance with Title VI of that Act and the Regulation, no person in the United States shall, on the grounds of race, color, or national origin be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination under any program or activity for which the Contractor receives financial assistance from the United States and hereby gives assurance that it will immediately take any measures to effectuate this agreement.

b. If any real property or structure thereon is provided or improved with the aid of Federal financial assistance extended to the Contractor by the United States, this assurance obligates the Contractor, or in the case of any transfer of such property, any transferee for the period during which the real property or structure is used for a purpose involving the provision of similar services or benefits. If any personal property is so provided, this assurance obligates the Contractor for the period during which it retains ownership or possession of the property. In all other cases, this assurance obligates the Contractor for the period during which the Federal financial assistance is extended to it by the United States.

c. This assurance is given in consideration of and for the purpose of obtaining any and all Federal grants, loans, contracts, property, discounts, or other Federal financial assistance extended after the date hereof to the Contractor by the United States, including installment payments after such date on account of arrangements for Federal financial assistance which were approved before such date. The Contractor recognizes and agrees that such Federal financial assistance will be extended in reliance on the representations and agreements made in this assurance, and that the United States shall reserve the right to seek judicial enforcement of this assurance. This assurance is binding on the Contractor, its successors, transferees, and assignees.

QUALITY OF WATER

13. The operation and maintenance of project facilities shall be performed in such manner as is practicable to maintain the quality of raw water made available through such facilities at the highest level

reasonably attainable as determined by the Contracting Officer. The United States does not warrant the quality of water and is under no obligation to construct or furnish water treatment facilities to maintain or better the quality of water.

WATER AND AIR POLLUTION CONTROL

14. The Contractor, in carrying out this contract, shall comply with all applicable water and air pollution laws and regulations of the United States and the State of Colorado and shall obtain all required permits or licenses from the appropriate Federal, State, or local authorities.

BENEFITS CONDITIONED UPON PAYMENT

15. The payment of charges becoming due hereunder is a condition precedent to receiving benefits under this contract. No water will be made available to the Contractor through project facilities during any period in which the Contractor may be in arrears in the payment of any water service charges due the United States pursuant to Article 4.

EQUAL OPPORTUNITY

16. During the performance of this contract, the Contractor agrees as follows:

a. The Contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, or national origin. The Contractor will take affirmative action to ensure that applicants are employed, and that employees are treated during employment, without regard to their race, color, religion, sex, or national origin. Such action shall include, but not be limited to, the following: Employment, upgrading, demotion or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The Contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided by the Contracting Officer setting forth the provisions of this non-discrimination clause.

b. The Contractor will, in all solicitations or advertisements for employees placed by or on behalf of the Contractor, state that all qualified applicants will receive consideration for employment without discrimination because of race, color, religion, sex, or national origin.

c. The Contractor will send to each labor union or representative of workers with which it has a collective bargaining agreement or other contract or understanding, a notice, to be provided by the Contracting Officer, advising the said labor union or workers' representative of the Contractor's commitments under section 202 of Executive

Order No. 11246 of September 24, 1965, and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

d. The Contractor will comply with all provisions of Executive Order No. 11246 of September 24, 1965, as amended, and of the rules, regulations, and relevant orders of the Secretary of Labor.

e. The Contractor will furnish all information and reports required by said amended Executive Order and by the rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to its books, records, and accounts by the Contracting Officer and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.

f. In the event of the Contractor's noncompliance with the non-discrimination clauses of this contract or with any of the such rules, regulations, or orders, this contract may be canceled, terminated, or suspended, in whole or in part, and the Contractor may be declared ineligible for further Government contracts in accordance with procedures authorized in said amended Executive Order, and such other sanctions may be imposed and remedies invoked as provided in said Executive Order, or by rule, regulation, or order of the Secretary of Labor, or as otherwise provided by law.

g. The Contractor will include the provisions of paragraphs a through g in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to section 204 of said amended Executive Order, so that such provisions will be binding upon each subcontractor or vendor. The Contractor will take such action with respect to any subcontract or purchase order as may be directed by the Secretary of Labor as a means of enforcing such provisions, including sanctions for noncompliance: Provided, however, That in the event the Contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction, the Contractor may request the United States to enter into such litigation to protect the interests of the United States.

CERTIFICATION OF NONSEGREGATED FACILITIES

17. The Contractor hereby certifies that it does not maintain or provide for its employees any segregated facilities at any of its establishments, and that it does not permit its employees to perform their services at any location, under its control, where segregated facilities are maintained. It certifies further that it will not maintain or provide for its employees any segregated facilities at any of its establishments, and that it will not permit its employees to perform their services at any location, under its control, where segregated facilities are maintained. The Contractor agrees that a breach of this certification is a violation of the Equal Opportunity clause in this contract. As used in this certification, the term "segregated facil-

ities" means any waiting rooms, work areas, restrooms and washrooms, restaurants and other eating areas, time clocks, locker rooms and other storage or dressing areas, parking lots, drinking fountains, recreation or entertainment areas, transportation, and housing facilities provided for employees which are segregated by explicit directive or are in fact segregated on the basis of race, creed, color, or national origin, because of habit, local custom, or otherwise. The Contractor further agrees that (except where it has obtained identical certifications from proposed subcontractors for specific time periods) it will obtain identical certifications from proposed subcontractors prior to the award of subcontracts exceeding \$10,000 which are not exempt from the provisions of the Equal Opportunity clause; that it will retain such certifications in its files; and that it will forward the following notice to such proposed subcontractors (except where the proposed subcontractors have submitted identical certifications for specific time periods):

NOTICE TO PROSPECTIVE SUBCONTRACTORS OF REQUIREMENT
FOR CERTIFICATIONS OF NONSEGREGATED FACILITIES

A Certification of Nonsegregated Facilities must be submitted prior to the award of a subcontract exceeding \$10,000 which is not exempt from the provisions of the Equal Opportunity clause. The certification may be submitted either for each subcontract or for all subcontracts during a period (i.e., quarterly, semiannually, or annually). Note: The penalty for making false statements in offers is prescribed in 18 U.S.C. 1001.

OFFICIALS NOT TO BENEFIT

18. No Member of or Delegate to Congress or Resident Commissioner shall be admitted to any share or part of this contract or to any benefit that may arise herefrom. This restriction shall not be construed to extend to this contract if made with a corporation or company for its general benefits.

CONTINGENT ON APPROPRIATION OR ALLOTMENT OF FUNDS

19. The expenditure or advance of any money or the performance of any obligation by the United States hereunder which may require appropriation of money by the Congress or the allotment of funds shall be contingent upon such appropriation or allotment being made. The failure of the Congress to appropriate funds or the absence of any allotment of funds shall not relieve the Contractor from any obligations under this contract. No liability shall accrue to the United States in case such funds are not appropriated or allotted.

IN WITNESS WHEREOF, the parties hereto have executed this contract
the day and year first above written.
